Summary

Final-year Artificial Intelligence and Machine Learning undergraduate with practical experience in Full Stack Development, specializing in React Native, Node.js, Express.js, and REST API development. Built and deployed real-time applications with a focus on performance, scalability, and user experience. Strong problem-solving, communication, and teamwork skills, with a passion for learning emerging technologies and delivering high-quality software solutions.

Education

Aditya Engineering College, Surampalem, Andhra Pradesh, • Bachelor of Technology • Artificial Intelligence and Machine Learning (8.12 CGPA)	2023 - 2027
Tirumala Junior College, Rajahmundry, Andhra Pradesh, • INTERMEDIATE (88.5 percent)	2021 - 2023
Tirumala EM School, Rajahmundry, Andhra Pradesh, • SSC (100 percent)	2020 - 2021

Experience

Software Engineering Intern, Virtusa Pvt. Ltd. – Hyderabad, India • Participating in the onboarding process and gaining exposure to enterprise software development practices and workflows. • Completing technical training on company standards, development processes, and collaboration tools used in project environments. • Learning Agile methodologies, software development life cycle (SDLC), and version control practices in an enterprise setting. • Preparing for project contributions by strengthening technical skills and understanding client delivery processes.	May 2026 – Present
Full Stack Development Intern, Technical Hub Pvt Ltd – Andhra Pradesh, India • Completed hands-on training in Full Stack Development, including front-end, back-end, and database integration. • Solved various coding challenges, enhancing logical thinking and problem solving skills. • Collaborated on a team project using the MERN stack, contributing to both user interface design and API development. • Gained practical exposure to Agile workflows, version control (Git) and deployment practices.	May 2025 – June 2025

Projects

Admission AI

- Deployed an LLM voice agent as a distributed FastAPI service on AWS (EC2 / SageMaker) with Docker, designed to handle real outbound-call traffic.
- Built a 12-step conversation-flow controller and validated behaviour through systematic testing, log analysis, and root-cause analysis.
- Integrated Twilio for real-time call handling; maintained version control and technical documentation in Git.

TripNest– Smart Trip Planning Web App

- Built an interactive trip planner with dynamic UI and logical feature design
- Developed Node.js backend services and structured data processing modules, reducing recommendation response time by 20

AEC Student Info Web

web application

- Built a complete student dashboard for Aditya Engineering College to retrieve and display real-time student data including attendance, CGPA, and photos using college portal integration.
- Developed using react and deployed web version on render
- Used Cheerio to parse and extract real-time data from an ASP.NET-based portal.
- Hosted backend on Render
- Tools used: React Native, JavaScript, Node.js, Express.js, Cheerio, AES Encryption, Expo, Render, HTML Parsing, CORS, GitHub

Skills

Programming Languages: Java, C, Python | **Core Coding Skills** Data Structures, Algorithms, Object-Oriented Programming, Problem Solving, Debugging, Logical Thinking | **Full Stack Development:** React.js, Node.js, Express.js, HTML, CSS, JavaScript, MongoDB, MySQL | **Cloud Technologies:** AWS (S3, EC2, Lambda), Cloud Fundamentals. | **AI/ML** Machine Learning, AI coursework, problem analysis and solution design. | **Tools:** Git, VS Code

Certifications

- HTML Essentials , CSS Essentials – Cisco Networking Academy
- Python & C Programming – Cisco Networking Academy
- AWS AI Practitioner Certification – Amazon Web Services
- Oracle Java Foundations – Oracle Academy
- GitHub Fundamentals – Microsoft
- MongoDB Certified Associate Developer
